^The number of books reported for FY2015 is significantly less than previous years due to previous years counting some cataloged serials as books. As a result, the number of cataloged serials for FY2015 is significantly more than previous years. Additionally, the number of microfilm reels is notably less for FY2015. Refer to the Cataloging Annual Report section "New for FY2015 - Library Collection Item Counts" for more details.

\*Prior to FY2008, many of the statistics included non-cataloged items. Microfilm reels still manually counted.

\*\*FY2011, this number culled from SerialsSolutions Data Summary for unique ebook titles. FY2012 forward, number from Sierra ebook count + OverDrive ebook count.

\*\*\*FY2014 UMS removed individual campus item records from system ejournals to accommodate a simplified process for maintaining database ejournals in Millennium. As a result, all UMFK item records for any ejournals, including a number of non-English journals, were removed from the system.
