

## BLAKE LIBRARY: Hours Question

Welcome to Blake Library's survey on summer hours. Blake Library hours during the summer semesters are usually Monday through Friday 8am to 4:30pm. In order to find out the best times to extend the hours\* during the first six week semester we would like your honest input on when you would use the library if it were open at times beyond the norm.

(\*This survey does not guarantee extended hours. It is simply for information purposes which may help us to provide extended hours.)

If using Netscape, must use 7.2 or higher.

**Comments:**

Since I do not have an internet connection at my home, or a printer I rely on the library for the computer lab a lot. I also use the library as a quiet place to study, as I cannot find this at my home. I will be in classes Monday - Friday during the full afternoon, which will limit the time I have to use the library to only the mornings during the week if you keep your summer hours as suggested above. I am only at school for the first three weeks of the summer course. I think the only time I wouldn't be at the library is Friday evenings. My tuition is just as much for the summer term as it is for any other term and I would hope that the library would be available for my use more than just during the daytime hours. As for the winter and spring terms I would like to see the library open earlier than 1 pm on the weekends. The reason I am at this school is to do work and it would be nice to be able to get into the library before 1 pm (not to mention it was locked last Saturday (April 16) and no notice as to why). Thank you for giving me the chance to give input. Katherine Shillington 992-2896

The library should be open the same hours in the summer term as the winter and fall terms because tuition is the same. A lot of courses for the summer term are online for education, limiting the access to the library will limit access for some students to perform the best for this course.

later is better since a lot of people have class or work in the mornings.
