*Prior to FY2008, many of the statistics included non-cataloged items. Microfilm reels still manually counted.

**Prior to FY2008, the books count included a large number of materials that were incorrectly coded as books (such as maps, scores, etc.) We have cleaned up this list for a more accurate book count, attributing to what appears to be a drop in numbers, when in fact the numbers in previous years were innacurate.

***FY2011, this number culled from SerialsSolutions Data Summary for unique ebook titles. FY2012, number from Millennium ebook count + OverDrive ebook count (Adobe only).
