<div align="center">**Serials**
FY2016</div>

General statistics:

- The current serials collection consists of 149 titles
  - 94 are print only titles:
    - 53 print titles purchased through EBSCO
      - 3 of these titles were purchased through the Inez Day fund, including 1 title through a membership subscription
      - 3 of these print titles comes with other purchased print titles or membership subscriptions
    - 19 print titles purchased through non-EBSCO vendors
      - 1 of these titles was purchased through the Inez Day fund
    - 22 print titles are free/gift subscriptions (in previous years, this count may have included titles that the library receives but does not retain)

  - 19 are print + online titles:
    - 18 print + online titles purchased through EBSCO
      - 1 of these print + online titles comes with other purchased titles
      - 3 of these print + online titles was purchased through the Inez Day fund
    - 1 print + online title purchased through non-EBSCO vendor

  - 36 are online only titles (purchased individually, not through database subscriptions)
    - 33 online only titles purchased through EBSCO
      - 1 of these titles comes with another purchased title or membership subscription
    - 3 online only titles purchased through non-EBSCO vendors

- 1 new print (free/gift) title was added in FY2016 (included in the title counts above)

- FY2016, 5 serials titles were cancelled:
  - 4 print only titles purchased through EBSCO were cancelled
    - 1 of these titles came with another purchased titled that was cancelled
  - 1 online only title purchased through EBSCO was cancelled

- In FY2016, 1 print (free/gift) title ceased publication

- See Appendix J for more details.

Serials
FY2016

- In FY2016, the library serials department provided routing services to faculty and staff. For routing statistics refer to Book 3, Appendix H.

Serials usage, including microfilm:

- For serials usage statistics, refer to Book 3, Appendix H.

Electronic serials:

- 121 full-text online databases are available, providing access to 62,903 unique titles (see Table 4).

Table 4. SerialsSolutions Statistics for Database Usage FY2016 (excludes ebooks)		
Fiscal Year	# of Databases	Unique Titles
2016	121	62,903
2015	117	58,425
2014	85	55,298
2013	83	50,636
2012	73	43,523

Search statistics taken from "Search Type Report" in SerialsSolutions; these do not reflect the total number of searches in all databases and will not match the reference statistics.

- See Book 3, Appendix H for more electronic serials statistics.

Continuing projects and goals:
- Routing in the summer months was reinstated in FY2016, as the serials department now has a full-time staff member.
- Library staff have found that using the simpler serials checkout process instead of the more complex, slower checkout process is preferable for staff. Additionally, using the simpler process provides a much swifter and pleasant checkout experience for library patrons.
