

Technical Services Overview

Technical Services comprises the Cataloging, Acquisitions, Serials and Special Collections Departments.

In FY2016 staffing changes resulted when Kathryn Donahue left for a position elsewhere. As a result, Asita Albert accepted the position of Head of Technical Services Librarian, and Brenda Pelletier's position was changed from part-time Library Specialist CL1 in serials to full-time Library Specialist CL2 in serials and acquisitions. The rearranging of staff positions in Technical Services results in a reduction in .5 person (previously 2.5, which reflected 2 full time positions and 1 part time position).
