

Welcome to learning about the Databases page.

If you decide to use one of the individual databases instead of OneSearch, you can get there by clicking on the "See full list..." on the right side of the library page.

Besides having a list of databases, including the short list of popular ones in the middle of the page, the database page has a few other helpful resources and information.

You can now view Academic Search Complete and other EBSCO databases in a visually friendly format on your internet accessible mobile device.

- See **Poster** for more information or check out the **Mobile page** where you will also get information about the iPhone app.
- You can access the Ebsco Databases by clicking on the following URL: <http://libraries.maine.edu/auth/auth.asp?db=EBSCOHost+Mobile>.

EBSCO EBOOK App: [Google Play Store](#) or [iTunes](#)

There is information about using our EBSCO databases on a mobile device.

You can also get the EBSCO ebook app.

### Useful Tools

is a list of free online databases available to residents of the state of Maine.

In case something happens to our access to the databases, you also have the option to use the Marvel databases if you live in the state of Maine.

All of the Marvel databases are ones in the list further down the page.

Try our **Blake Library Serials** (Journals, Magazines, and Newspapers) by Subject & Serials Solutions (easy lookup of full text journals online).

You have the options to browse by either Blake Library print serials or by electronic serials to which our library has access.

My Research is in the Subject of...

Select a topic:  Search

Finally, you are able to narrow down what databases might be useful to you by using the "My Research is in the Subject of..." option.

However, this option may go away in the future since OneSearch does not require you to figure out what database to use.

If you are interested in using one of the individual databases, which is still useful since some databases such as PsycINFO and CINAHL have very specific limiters, you can get information about them by clicking on the "i" icon.

Available Databases

Click on [i](#) for more information about a database. means this database is accessible off campus.

A • B • C • D • E • F • G • H • I • J • K • L • M • N • O • P • Q • R • S • T • U • V • W • X • Y • Z | [View All](#)
